

BROADWAY KIDS

RCT's Introduction to Musical Theatre class!

At a glance:

Broadway Kids is the perfect mix of musical theatre, dance and acting skills for our youngest students. This introduction to musical theatre gives kids the opportunity to explore many aspects of performing, with theater games, music basics, and dance instruction. This is a great starting point for new performers to help prepare them up to successfully participate in shows as they get older.

This class is designed to help students grow in self confidence, all while having a lot of fun performing some of their favorite Broadway songs! Each student will receive a class songbook, link to music for at home practice, and a professional recording of the sharing showcase as a treasured memory!
